Taking Photos: Quick & Easy Tips!

Hold your phone/ camera horizontally

Portrait

Look for individual action shots, casual moments, group photos and moments of emotion

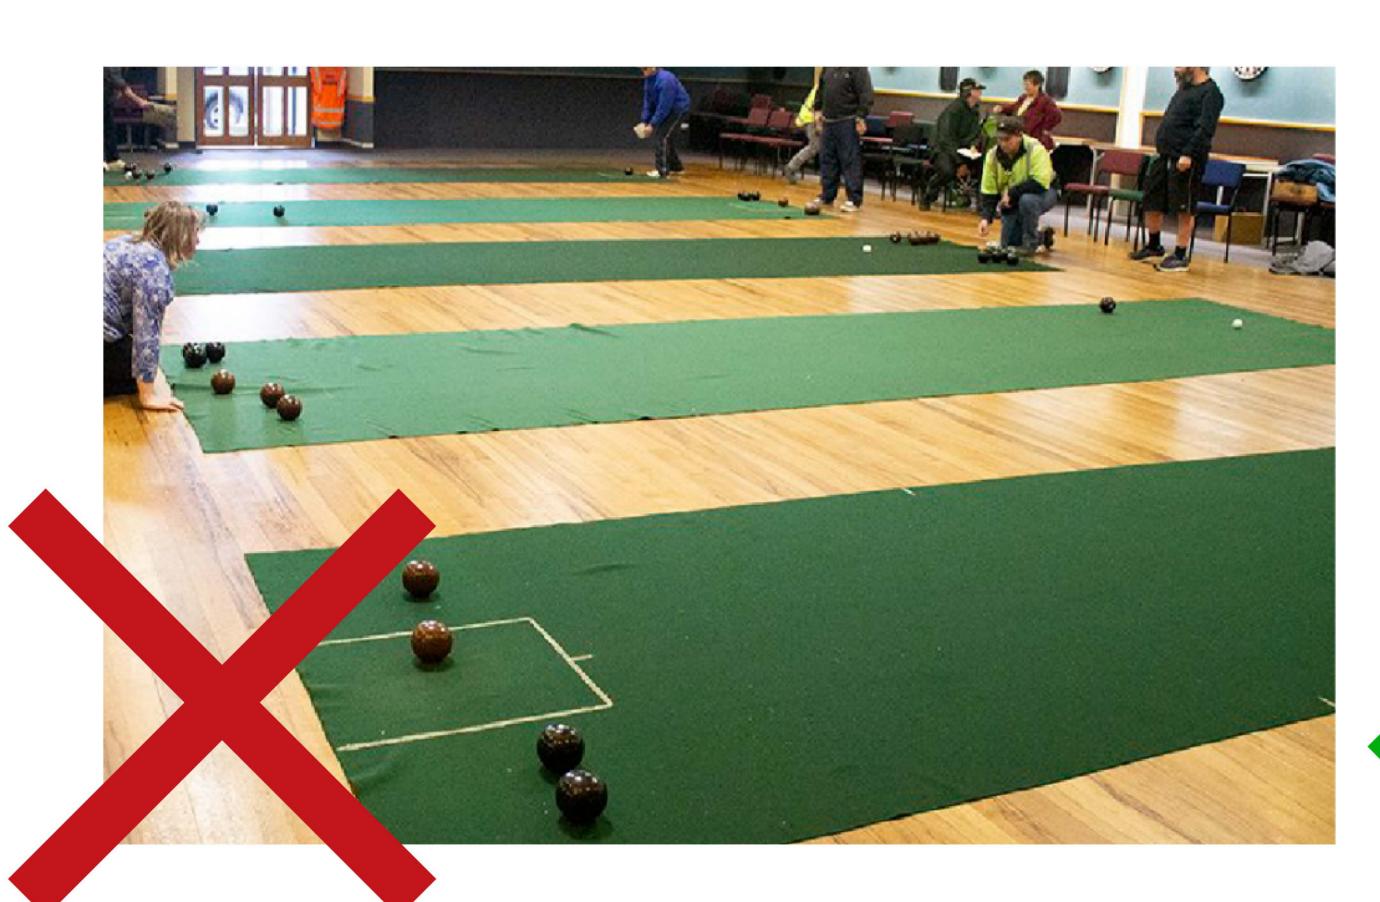

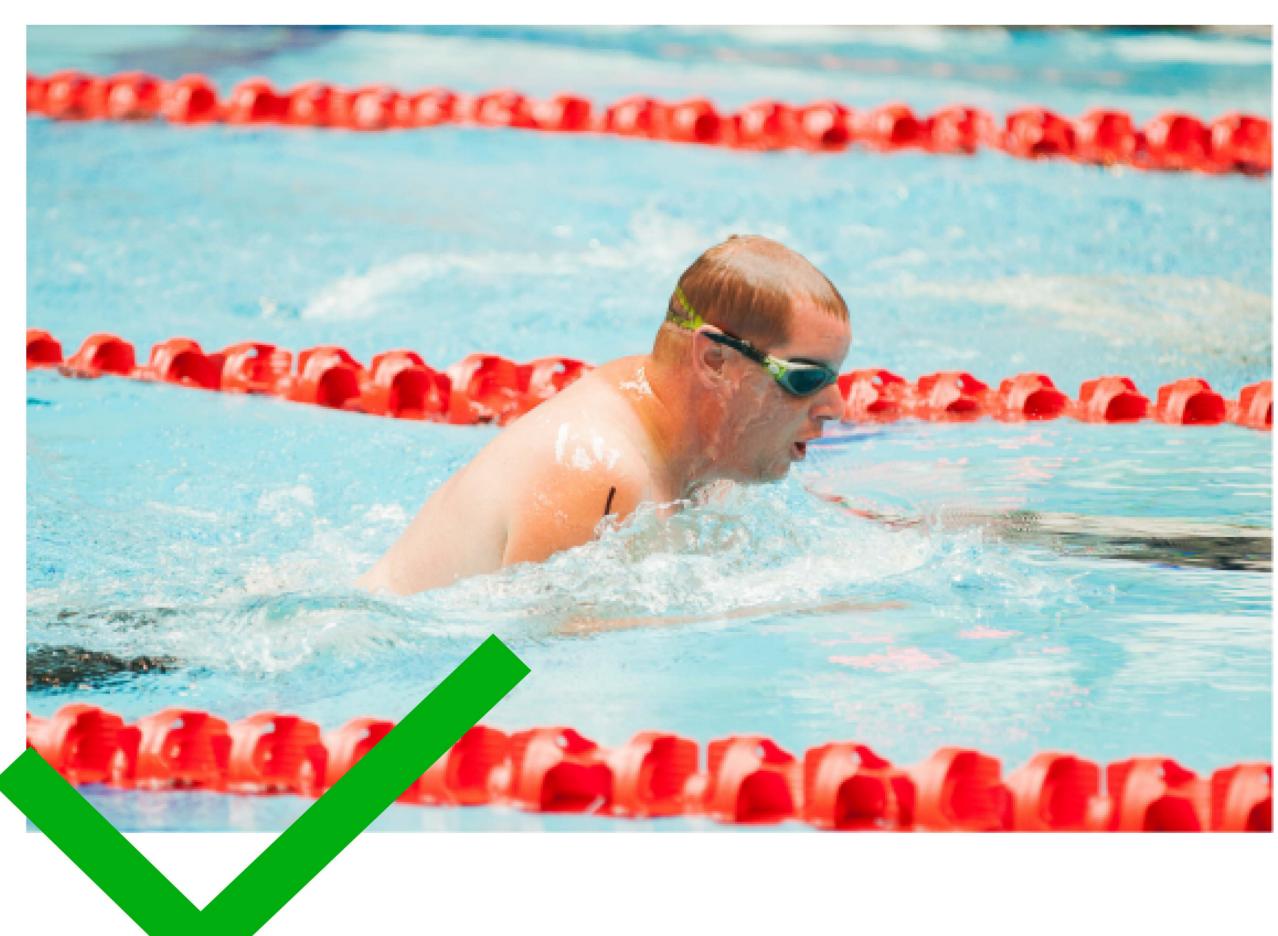

Zoom in for better photos

Take photos of people, not places

Hot Tips!

Group Photos

Get the group to move while you take photos! Encourage them to wave, jump or chat or try and get a laugh!

Don't crop or edit

It might be tempting, but don't crop or edit your photos! This can reduce image quality.

Send them to us unedited!

Have fun!

Even if your photos don't turn out perfect, that's OK!
We can never have too many photos and we love all of them
because they each show a unique moment in time!
